BOOKLET A**

Name: _____ ()

Class: Primary 3 ____

Date: _____

Duration of paper: 50 min

Parent's/Guardian's signature

INSTRUCTION TO CANDIDATES

1. This question paper consists of **10** printed pages including this cover page.
2. Do not turn this page until you are told to do so.
3. Follow all instructions carefully.
4. Answer all questions.
5. Shade your answer on the Optical Answer Sheet (OAS) provided.

For each of the following questions from 1 to 11, four options are given. One of them is the correct answer. Make your choice (1, 2, 3 or 4). Shade the correct oval (1, 2, 3 or 4) on the Optical Answer Sheet. [22 marks]

- 1 There are different types of bacteria. Which of the following group has a bacteria that is **wrongly** classified?

- 2 Yin Hua placed 20 nuts and 100 ml of water in the box as shown.

Animal X is placed in the box for one day.

What would Yin Hua observe about the number of nuts and amount of water the next day?

	Number of nuts	Amount of water
(1)	More than 20	More than 100 ml
(2)	More than 20	100 ml
(3)	20	Less than 100 ml
(4)	Less than 20	Less than 100 ml

- 3 Simba conducted an experiment using two similar young plants as shown. Both set-ups A and B were given an equal amount of water at the start of the experiment.

Simba recorded the height of each plant in the table below.

Day	Height of plant (cm)	
	Set-up A	Set-up B
1	9	9
10	9	12
15	9	15
20	X	Y

Which of the following best represents X and Y?

	X	Y
(1)	6	9
(2)	7	12
(3)	8	15
(4)	9	18

- 4 Rebaca grew bacteria T in jelly and observed the change in the number of bacteria over three days.

Which of the following explains Rebaca's observation?

- (1) Bacteria T reproduced.
- (2) Bacteria T ate the jelly.
- (3) Bacteria T responded to changes.
- (4) Bacteria T broke into pieces.

- 5 Study the diagram which shows a plant found in a desert.

Which of the following set of characteristics best represents the plant above?

	Characteristics		
	Is flowering	Needs water	Grows in water
(1)	✓	✓	✓
(2)	✓	✓	
(3)			✓
(4)	✓		✓

6 Study the diagrams of two different animals.

Based on the diagrams only, what do the two animals have in common?

- A They have eyes.
- B They have wings.
- C They have feelers.
- D They have more than two legs.

- (1) A only
- (2) A and D only
- (3) B and C only
- (4) A, C and D only

7 Study the classification diagram carefully.

Which of the following could A, B and C be?

	A	B	C
(1)	Fish	Birds	Mammals
(2)	Fish	Insects	Amphibians
(3)	Amphibians	Birds	Reptiles
(4)	Reptiles	Insects	Mammals

8 Study the flowchart below.

Which of the following best represents the letters K, L and M?

	K	L	M
(1)	insects	fish	flowering plant
(2)	mammals	amphibians	non-flowering plant
(3)	mammals	reptiles	flowering plant
(4)	birds	insects	fungi

- 9 Zen tests the strength of four trays that are of the same size but made of different materials, A, B, C and D. He puts weights, one at a time, on a tray until the tray breaks.

He repeats the steps with other trays and records his findings below.

Tray	A	B	C	D
Number of weights before tray breaks	9	6	4	8

Which tray(s) would be able to hold five such weights?

- (1) C only
- (2) A and B only
- (3) A, B and D only
- (4) A, B, C and D

- 10 The diagram shows a fireman using a fire extinguisher with two important parts, P and Q as shown.

Part	Use
P	Tube to aim over the fire
Q	Container to store substance X which helps to put out a fire

Which of the following correctly matches the materials with the parts P and Q?

	P	Q
(1)	glass	wood
(2)	rubber	metal
(3)	rubber	fabric
(4)	glass	ceramic

- 11 An experiment was conducted to find out how different types of soil affect the growth of plants.

Set-up	A	B	C	D
Type of soil	garden	sandy	garden	sandy
Amount of water given (ml)	40	30	50	40

Which set-ups should be used to ensure a fair test?

- (1) A and B only
- (2) A and D only
- (3) B and C only
- (4) B and D only

END OF BOOKLET A

Please go on to Booklet B.

PRIMARY THREE
BOOKLET B**

Name: _____ ()

Class: Primary 3 ____

Date: _____

Duration of paper: 50 min

Parent's/Guardian's signature

INSTRUCTION TO CANDIDATES

1. This question paper consists of 6 printed pages, including this cover page.
2. Do not turn this page until you are told to do so.
3. Follow all instructions carefully.
4. Answer all questions.
5. Write all your answers in this booklet.

Booklet	Maximum marks	Marks obtained
A	22	
B	18	
Total	40	

For questions 12 to 16, write your answers in the spaces provided in this booklet.
The number of marks available is shown in brackets [] at the end of each question or part question. [18 marks]

12 Study the diagram of a mushroom carefully.

(a) On the diagram above, fill in the blanks with the correct parts. [3]

[There are four helping words given below. Use each word only once or not at all.]

Helping words:	stalk	cap	stem	gills
----------------	-------	-----	------	-------

(b) State the function of the gills in a mushroom. [1]

(Go on to the next page)

Score	
	4

13 Study the flowchart carefully.

Based only on the flowchart above and your observations of the diagrams below, write the letters E, F, G and H in the correct boxes provided. [4]

(Go on to the next page)

Score	4
-------	---

14 Study the classification diagram below.

(a) Using the diagram above, state all the characteristics of R. [1]

(b) State one difference between X and Y. [1]

(c) Based on the classification diagram, name suitable animal groups in which P and Q belong to. [2]

Animal Group	
P	Q

(d) Based on the diagram, which thing, X, Y or Z, is suitable to be made into a raincoat? [1]

(Go on to the next page)

Score	
	5

- 15 The picture shows the windscreen of a car.

Study the table below.

Property	Material		
	A	B	C
Is it waterproof?	No	Yes	Yes
Does it bend easily?	Yes	Yes	No
Does it allow light to pass through it?	No	Yes	Yes

- (a) Which material, A, B or C, is most suitable to make the windscreen? State two reasons for your answer. [2]

- (b) State the type of material which the windscreen could be made of. [1]

(Go on to the next page)

Score	
	3

- 16 Shanti has two sticks of the same thickness but made of different materials. She placed them flat on a table and bent them upwards with her finger, one at a time. She then measured the height that the stick bent just before the stick broke.

- (a) What property of material is Shanti trying to test? [1]

- (b) State one other variable to keep the same to ensure a fair test. [1]

END OF BOOKLET B
Please check all your answers carefully.

Score	
	2
